Candle Care & Safety

Simple Care | Safe Use |
Longer Lasting | Brighter Moments

Follow these simple care and safety tips to enjoy a beautiful, safe and long-lasting candle experience. A little care goes a long way in keeping your candles burning brighter and your moments more special.

Premium
Fragrances

Handcrafted
with Care

Natural
Soy Wax

Perfect
for Gifting

USAGE TIPS

First Burn

Allow the candle to burn for 2-3 hours on the first use so that the wax melts evenly across the surface.

Trim the Wick

Keep the wick trimmed to about 5 mm before every use for a cleaner and longer burn.

Use a Stable Surface

Always place your candle on a flat, heat-resistant and stable surface.

Keep Away from Drafts

Keep candles away from fans, air conditioners and open windows to ensure an even burn.

Use a Lid

Use a lid when not in use to protect from dust and help retain the fragrance.

SAFETY GUIDELINES

Keep Out of Reach

Keep candles away from children and pets.

Keep Away from Flammable Items

Do not place candles near curtains, papers or other flammable materials.

Never Leave Unattended

Never leave a burning candle unattended.

Use in Well-Ventilated Area

Use candles in a well-ventilated space for a better and safer experience.

Extinguish Safely

Use a candle snuffer or gently blow to extinguish the flame.

Avoid Excessive Heat

Do not expose candles to direct sunlight or high temperatures.

STORAGE TIPS

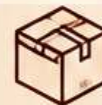

Store in a Cool & Dry Place

Keep candles in a cool, dry place away from direct sunlight.

Keep Covered

Use a lid or cover to maintain the fragrance and prevent dust.

Longer Shelf Life

When stored properly, our candles retain their quality and fragrance for a longer time.
